### And What Have You

By BOB CRAIG

For some reason or other I had a few people give me a hard time last week just because in our story on the water and sewer rate increase we had that the price of water after 14,000 gallons would be 50 cents a gallon instead of 50 cents a thousand gallons.

The city needs the money all right but I guess 50 cents a gallon would be a little too much.

As with any increase in costs there are those who are upset about the city raising the water and sewer rates. If it is any consolation, the increase came only after a great deal of discussion and a lot of searching for some other means of raising enough revenue to meet the needs of the city for the coming year.

The councilmen seemed to think that this method would hurt the retired people and those living on meager incomes the least. A tax increase would hit everyone and while everyone's sewer bill will go up a \$1.00 a month, only those using a great deal of water will pay anymore for their water.

Facing the city fathers was the need to find some method of raising enough money to pay for a new fire truck expected to cost \$18 to \$22,000, which is a must purchase if the city is to maintain its fire rate. Also facing the councilmen this year is a new sewer system that is expected to cost the city some \$25,000 this year and another \$25,000, spread over several years. This too, is an expense that the city cannot avoid because of state and federal regulations.

Since a great deal of the money needed was for a new sewer system the councilmen seemed to feel that an increase in sewer rates would be fair and justified.

I was disappointed in the state-wide voting on the amendments last week. I can understand that people are tired of spending so much money on welfare, especially with all of the waste. But, at the same time, because of the defeat of the welfare amendment, I can foresee a great many problems facing the state during the next two years unless some arrangements can be made to take care of the needy.

The most disappointing thing about the election was the poor turnout of voters. I received the following letter from Representative Frank Calhoun that was written the day before the voting but expresses his concern about people not voting.

Dear Bob:

Just a note to thank you for your indepth editorial on the Constitutional Amendments in the Hamlin Herald of May 13, 1971. I certainly hope that all of your readers read in full your editorial and maybe it will encourage them and provoke them into voting on Tuesday. The vote will probably be very light and this is indeed unfortunate.

I wish that I know of some way to impress on the voting public the importance of amending our Constitution. Your editorial should certainly help.

Best personal regards.

Sincerely,  
Frank W. Calhoun

If I wore a hat I certainly would take it off to the few men who have worked so hard over the past month or so in the clean-up campaign. This is especially true of the city employees who have done such a good job of cleaning off a number of lots in the downtown area.

While it will take a long time to get Hamlin as clean as we would like for it to be, if you will take the time to drive around you will see that a great deal has been done.

The big problem is getting more people to help. If you have some time that you could spare I would suggest that you either meet with those working each Tuesday and Thursday

## Sidewalk Sale, Flea Market Being Planned Here June 4

The Retail Trade Committee of the Hamlin Board of Community Development announced plans this week for a Sidewalk Sale and Flea Market to be held here Friday, June 4, according to Chairman Charles Reed.

In making the announcement, Reed said that the committee hopes all of the people in the area will take advantage of the Flea Market and make this a big downtown Garage Sale with tables and booths set up all over the downtown area.

The Sidewalk Sale has been an annual affair sponsored by the Retail Trade Committee for the past several years, but this is the first year that the idea of a Flea Market has been planned in conjunction with the sale.

Those interested in bringing unneeded merchandise to town to sell are urged to contact any merchant for help in finding a location to set up. Plans call for the public to set up their merchandise on sidewalks and between the downtown buildings.

Some merchandise has already been donated to offer at a drawing to be held at the end of the day and various merchants are expected to have special bargains for sale out on the sidewalk as well as prizes to be given at drawings.

Reed said that it is the hope of the committee that everyone will take advantage of this opportunity to make this an old fashion type Swap and Shop day and a day to have fun and visit with your friends.

## Bill Feagan to Serve As Rehab Center Director

Bill Feagan of Hamlin was one of the new members elected to the Board of Directors of the West Texas Rehabilitation Center in Abilene. According to Bobby Sayles, president of the Rehab Center, Feagan joins other West Texans on the new board of directors in an effort to make the center an even more of a regional rehabilitation center.

Sayles, Tuscola banker, stated as one of his goals when taking over the helm as president of the Board of Directors in January of 1970, his desire that the West Texas Rehabilitation Center would become regionally representative not only in the services the Center gives, but by electing

members to the Board of Directors of the Center.

The West Texas Rehabilitation Center, founded in August of 1953, has grown from a one room treatment facility to a physical plant valued at over one million dollars with a large staff of therapists and diagnosticians. No patient is ever denied treatment at the Rehabilitation Center because of financial circumstance or geographical restrictions.

The majority of the Center's budget of \$426,000 must be raised from donations. These range from memorial gifts to participation in the Cattleman's Round-Up for Crippled Children to specific or general gifts. Donations large and small from donors of all types have and will make the West Texas Rehabilitation Center belong to all West Texans.

Iron Starved Plants  
Ever wonder why your azaleas, rhododendrons and other plants turn yellow, even after you have given them regular care? It's true that some insects and diseases produce yellowing or pale leaves, but there's another common cause — iron deficiency, referred to as iron chlorosis.

Home gardeners often neglect this important plant food, because it is one of the so-called minor elements. Fact is, iron is just as important to green, rich color and plant health as major elements such as nitrogen.

You'll recognize iron deficient plants by their pale green or yellow leaves, with green markings along ribs or veins. In advanced stages, plants stop growing and eventually die. It's a problem of professional and home gardeners alike. Roses, azaleas, rhododendrons, holly, pin oak and others are extremely susceptible.

You may think your plants are getting plenty of iron because your selection of fertilizer contained iron or because you had a test run on your soil and it showed sufficient iron. It is possible to have plenty of iron in the soil and plants still be unable to get it. Iron combines with other chemicals in the soil such as lime and becomes "tied up" or unavailable to plant growth.

To be on the safe side, treat your plants with an iron solution such as Sequestrene which contains ferrous (Fe) iron chelate. In this form, the iron is available to plant growth and can not be "locked up" with other chemicals.

For individual trees, plants, and small flower beds, sprinkle material directly from the package evenly over soil surface around plants. Then water the soil to a depth of six inches. On larger areas such as lawns, gardens or numbers of trees and shrubs, mix with water and use as a spray. Wet plants to the point of dripping but do not drench. Spray underside of leaves and centers of trees and shrubs that have dense foliage. Iron restores vigor and color to yellowing, iron deficient grass and plants. If lack of iron is your problem, a treatment now will make a lot of difference in your plants in a couple of weeks.

HOMEMAKERS CLASS  
MEETS WITH MRS.  
SCOTT MONDAY

Homemakers Sunday School Class of First Baptist Church met Monday evening in the home of Mrs. Melvin Scott for a salad supper and a book review presented by the hostess.

Mrs. Scott reviewed "Crosses of Zarin" by Jean Bell Mosley. Co-hostesses were Mmes. Charles Pearce and C. E. Evans.

Others attending were Mmes. LaFoy Patterson, Leldon Clifton, James Rodgers, Marvin Carlton, Joe E. Ford, Rex Reynolds, Ed Lewis, Doyle Ponder and Bill Shira.

Wedding Hints . .

If a wedding is being planned, these pointers on deadlines will aid in getting complete coverage of the event in the Hamlin Herald.

Two pictures of the bride will be used, a one column with the engagement story (if announced six weeks or more prior to the wedding) and a two column with the wedding story.

A billfold size black and white picture is adequate for the picture published with the engagement announcement.

The wedding picture should be a 5 x 7 or 8 x 10 black and white print. This needs to be turned in with the wedding information to the Herald office on Tuesday preceding the date of the wedding or no later than Monday immediately following the wedding.

Information and picture received three weeks after the event will not be published.

If the bride chooses, she may have a picture taken at a tea or shower instead of the wedding picture. A sharp black and white print must be in the Herald office by Tuesday morning immediately following the event.

Information blanks for engagements, weddings and anniversaries are available at the Herald office.

Mr. and Mrs. Gary Don Seay of Stamford are parents of a girl, Melody Ann, 9 lbs. 10 1/2 oz., born May 23 at 6:30 a.m.

NEWS FROM . .

Sylvester

By MRS. R. M. BABB

A very cool Monday morning for the 24th of May and very, very dry!

Mrs. Neda Kiser spent several days last week in Callan Hospital in Rotan but is home at this time.

I don't think I have mentioned the Jim Beck's new grandson, Christopher Andrew Sims, son of Mr. and Mrs. Taylor Sims of South Carolina.

Our congratulations to Debbie and Ray Douglass, Sylvester graduates of Roby High School.

Mr. and Mrs. Cecil Sluder of Lubbock visited in the Mutt Early home this past Sunday, then on Sunday night the Earlys attended their granddaughter's Baccalaureate service in Snyder.

Mrs. Ruth Brown and Mrs. Carra Perkins spent one

evening last week in the Prather home in Sweetwater.

Mrs. Lorene Mauldin and Mrs. J. E. Tindall shopped in Abilene on Monday.

Mrs. W. B. Brown and Mrs. May Hurst shopped in Abilene on Saturday.

Mrs. Chub Hardwick and Wenzel attended the first grade picnic with Naressa last Friday.

Visiting in the home of Mrs. Gladys Williams Saturday night were their granddaughters, Janie and Gladys.

Visiting for a short time Saturday with Mrs. J. P. Maberry was her sister-in-law and her nieces from Odessa.

I am very sorry the news is short again this week but I have been out of town most of the time so I know very little.

The credit record of the electric cooperatives is perhaps without parallel in the history of the nation. In Texas alone some 79 separate, independent rural electric utilities have compiled a repayment record on their financial obligations which enviable by any standard. These member-owned electric systems have met these obligations on time while providing a dependable supply of low-cost power to people who had no electricity.

This record speaks proudly of the diligence and integrity of the member-owners of the Midwest Electric Cooperative who are building a brighter tomorrow and helping Texas Grow.

# FROM THE FILES . . .

FORTY FIVE YEARS AGO  
(May 21, 1926)

Tuesday was a lovely spring day; only a bit too warm after the cool days, but a rather modest scattering cloud began to form in the north and then electrical display and thunder started. It began to look like a "bluff," like the kind we get when we really want a good rain, so for an hour it looked like it was uncertain what to do. But before sundown there was considerable hail in town and to the west, across Fisher County, hail fairly poured. It is said there was great damage to window glass at the Cement Mills and lots of young crops damaged.

Rain kept falling and by midnight the largest general rain of the year fell. This filled all lakes and flushed out all streams. This rain stopped the planting rush. Probably two thirds of the cotton crop was planted and lots of it up. In some cases the Tuesday night rain will be the cause of replanting. The seasons this spring are wonderful, all we need to get our farming interests on the way to growing is warm weather and not so much rain.

One of the most prominent events of everybody's community every year is the closing of school with its several programs and graduation exercises. These programs began last week and also Friday evening Mrs. Swanson, instructor in Expression and Mrs. L. B. Howard, Director of Music in the High School gave joint recitals to large and appreciative audiences. These Departments have made splendid progress in this term and the manner in which the students responded in their programs proved that their instructors have done their part as instructors.

TWENTY YEARS AGO  
(May 25, 1951)

A majority of the 1951 Hamlin High School graduates plan to attend colleges, it was revealed last week in a survey made by the Hamlin Herald in questionnaires submitted to individual members of the Senior class to fill in.

Out of a total of 49 questionnaires returned to The Herald 23 said definitely that they will go to college. Eleven of the class have no definite plans and 15 are undecided in the proposition.

There were 26 boys in the class compared with 23 girls. A large percentage of the class members are either members of some local church or gave their church preferences.

TEN YEARS AGO  
(May 25, 1961)

Showers during the week and the high humidity has slowed work on the wheat harvest. Only about 40 percent of the wheat in this area has been harvested thus far according to Robert Fowler at the Moore Elevator.

The Hamlin elevator shipped the first carload of wheat in the nation into Fort Worth last week. Although the hail last week damaged wheat in the Celotex and Swedonia area west

of town 50 percent to 100 percent, the average is running about 17 to 18 bushels per acre.

Mr. Fowler feels that if the sun shines for the next several days it is possible the farmers can complete the harvest this next week.

The moisture received in the Hamlin area since the first of January is 5.94 inches, which is below the 7 inch average for this time of year, according to Bill Rountree at the City Pump Station.

Small amounts of rain has fallen on five separate occasions this month totalling 2.22 inches. Some hail was reported with most of the damage west of town.

Aspermont carried home both the men's singles and doubles in the open class of the second annual Hamlin Jaycees Tennis Tournament held here this weekend.

The Hamlin High School baseball team will play Crane in the regional playoffs to be held in Midland at 2 p.m. Saturday.

Hamlin won bi-district 3 and 4 by twice defeating the Cisco club. By defeating Spearman and Alpine, Crane won bi-district 1 and 2.

Open house will be held at the recently completed Baptist parsonage, 815 W. Lake Drive, from 3 to 5 p.m. Sunday.

In the meeting of the City Council, held May 16 in the City Hall, the engineering firm of Frees, Nichols and Andress from Fort Worth advised the council on the purchase of new water pumps needed at the Stamford plant to pump water to Hamlin.

Due to the increase of water consumption here the pumps now in operation are unable to furnish as much water as needed.

## And What Have You

By BOB CRAIG

evening or contact Ellis West or Jerry Smith and volunteer your services. If you can work either Tuesday or Thursday, the workers are meeting at the City Barn at 6:30, but if you would prefer to work some other time then there are a number of jobs that can be done anytime.

There are a lot of lots that could be mowed, if the junk and rocks were removed. But this all takes manpower and up to now there seems to be a shortage of this.

There are a number of downtown buildings that need to be boarded up and painted so that those passing through town do not get the impression that this is a ghost town. Donations for materials are needed for this project as well as labor.

Another project that would go a long way toward improving the looks of downtown would be to cut the weeds and grass growing in the cracks in our sidewalks and curbs. These also need to be sprayed with a weed killer to keep them from growing back as fast as they are cut.

The list of jobs that need to be done are almost endless but they all require labor from people who care. Won't you be one who cares!

## Neinda Philosopher Comes Out Against A Law Stopping Annual Auto Changes

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One gets sort of twisted up this week on a discussion of an economic problem. He's sometimes hard to follow.

Dear editor:

In an article I ran across in a newspaper last night, this fellow Ralph Nader was arguing that Congress ought to pass a law to stop the automobile industry from changing models every year and take the money saved and invent a car that's pollution free.

I'm in favor of pollution-less cars, but I'm not sure Mr. Nader understands the economy of this country. A fast turnover seems to be the key to a booming economy.

Take pianos. The piano industry has rocked along for generations without ever hitting on the idea of coming out with a new model every year and as a

result it considers itself lucky if it sells a family one piano in a lifetime, and how many people does it employ? Just a few thousand, compared with hundreds of thousands in the auto industry. Piano workers could strike tomorrow and the economy would never know it. Probably couldn't even make the TV evening news.

Or take the plumbing industry. Have you ever stopped to think how much bigger an industry it'd be, how many more people it'd employ, if it'd convince housewives they ought to change bathtubs every year? It never occurred to the industry all it had to do was change fender designs, add hide-away faucets and maybe add safety belts.

Also, blacksmiths haven't changed the style of horseshoes in a hundred years, and how many blacksmiths are still around?

Or take probably the worst

example, trains. You ever hear of the railroads changing models on engines and passenger cars every year? How many passenger trains are still left?

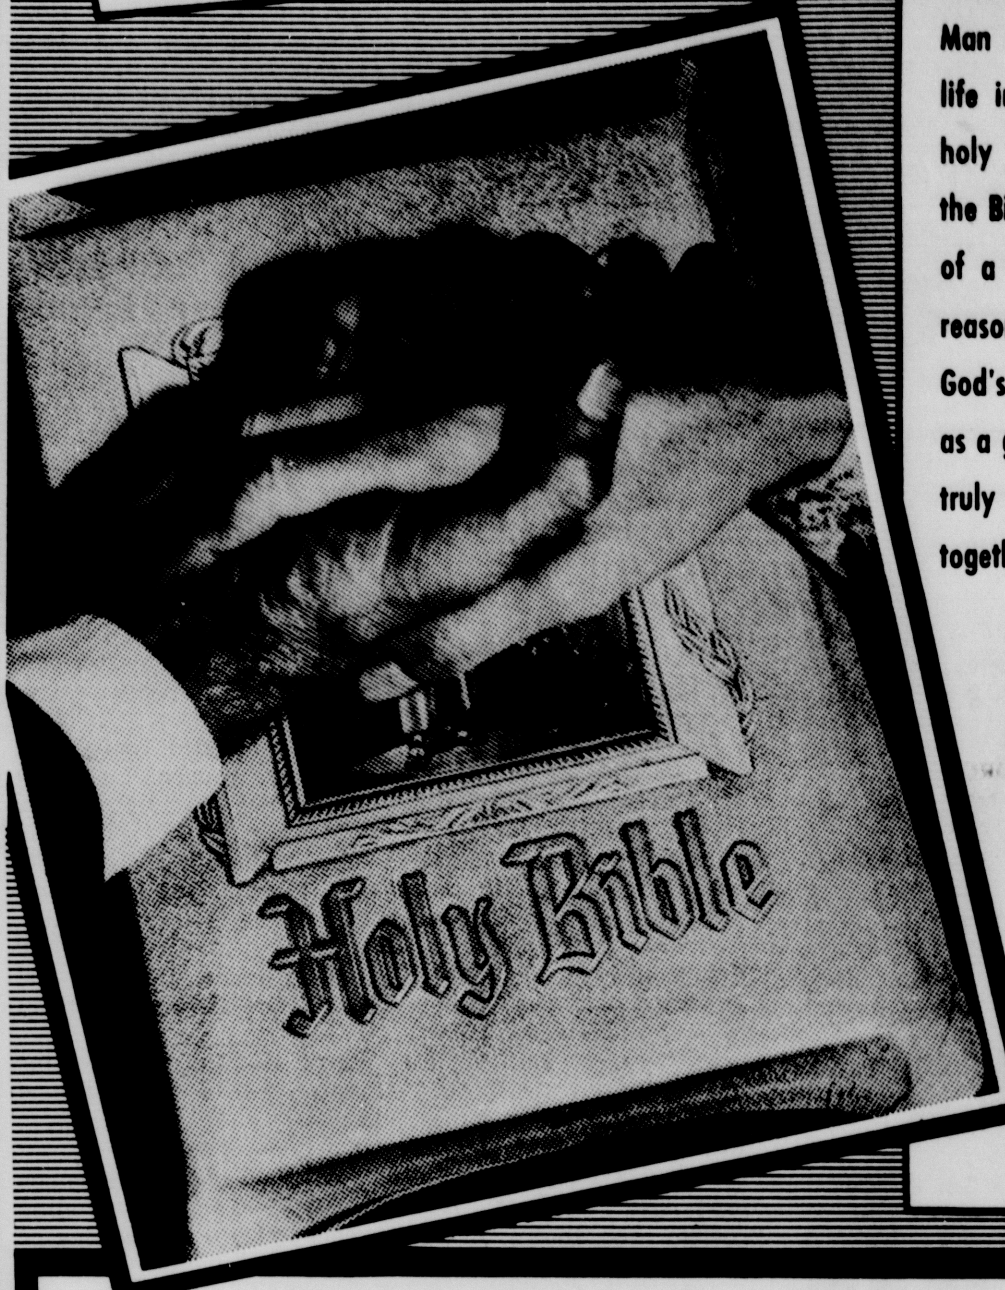

Probably the reason farmers are in such bad shape is they've been raising the same brand of meat and potatoes for the last 1,000 years. Can you tell a 1971 hen egg from a 1910 model?

Or take people. We haven't had a model change in people in thousands of years, and look what shape the world's in today. Model changes, that's what keeps the economy booming.

Yours faithfully,  
J. A.

## The TIE that Binds...

Man and woman began their married life in church and according to God's holy word are joined together. With the Bible as the basis for the beginning of a new life together, it seems only reasonable that a continued study of God's word would strengthen and serve as a guide to any couple. The Bible can truly serve as a tie that will bind two together in accord. The church as God's agency on earth can help you in Bible study, and with the guidance of the Holy Spirit can help you to understand God's will in your life.

"And the Lord shall guide thee continually, and satisfy thy soul in drought, and make fat thy bones; and thou shalt be like a watered garden, and like a spring of water, whose waters fail not." Isaiah 58-11

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

## Fort Griffin Fandangle Sets Six Performances In June

The 1971 Fort Griffin Fandangle will be staged at the Prairie Theatre in Albany on June 17, 18, 19, 24, 25, 26. The Fandangle Parade, scheduled for one day only, will be staged Thursday, June 24, at 6:00 p.m. Barbecue will be served on the Courthouse square each night of the performance, beginning at 5:00 p.m. Price of the barbecue will be \$2.00 per plate.

The Fandangle is presented in its own especially designed outdoor theatre. Carved from one of the hills which surround Albany, the theatre is a natural setting for the telling of ranch country heritage.

Ticket prices, all seats

reserved, are: \$5.00 for Box Seats; \$3.50 for chair seats, center section and first rows of side sections; \$2.00 for chair seats, side sections; and \$1.50 for bleacher seats.

Fandangle opening night, June 17, has been designated "Kissin' Kin" night. For this one night only a reduced scale of ticket prices is available. Mail orders for tickets to the Fandangle are being accepted now. Box office will open Tuesday, June 1, at the Fandangle Office in Albany.

Each year the Fandangle is different, presenting new songs, new action and new dramatic surprises. This year Director James Ball has written "The Rainmaker," and very timely, indeed, about an Old West rainmaker.

Since 1938 the Fort Griffin Fandangle has been recreating Prairie History through pageantry and comedy and showing-off Western style.

During its six night summer fun the Fandangle Prairie Theatre's 1600 seats are filled with people from all over the United States — people who find the show enchanting and return again to bring others with them.

For brochures and information about the Fandangle, write the Fandangle Office, Box 185, Albany, Texas 76430.

One who kills with a weapon not generally classed as deadly must be permitted to testify as to intent, Court of Criminal Appeals ruled.

## Denver City Rites Held Monday for Mrs. John Brown

Services were held in the First Baptist Church of Denver City Monday for Mrs. John Brown, the former Mary Jeanette Townsend, a former Hamlin resident. She died Saturday in Lubbock at the age of 24.

She was born Jan. 7, 1947, in Rotan and had lived in San Angelo four years, moving there from Levelland.

Survivors include her parents, Mr. and Mrs. James Townsend of Denver City, her husband, two sons, of the home; one brother, one sister and grandparents, W. R. Townsend of Hamlin and Mrs. R. J. Cox, formerly of Hamlin, now of Brownfield.

Weekend events should be reported to the Herald by noon Monday.

AT DINNER FRIDAY — Toni Casey, left, and Darrell Craig, right, both Hamlin High School seniors, visit with Carolyn Guinn an Albany senior, and Richard Moore, a member of the Abilene Chamber of Commerce Education Committee, at the West Texas Outstanding Scholars Dinner Friday evening at McMurry. Austin — Voters were in an antagonistic mood toward three proposed changes in the Texas constitution last week, but they approved one amendment termed "a great step forward for Texas cities and towns."

Down the drain went proposals to set up a state commission on officials' ethics and legislative pay, to increase the welfare ceiling and to permit constitutional amendments to be submitted in special sessions.

Whether welfare defeat will mean early cuts in assistance to the needy is the subject of sharp disagreement. It's a cinch legislators will get no early pay raise, although they can adopt their own code of ethics by statute.

Amendment adopted creates a \$100 million bond fund for construction of city or regional sewage treatment facilities.

Texas Water Quality Board Chairman Gordon Fulcher, Atlanta newspaper publisher, said adoption of the bond amendment is a "stride we very much hoped to make in order to reach our goal of meeting statewide water quality standards by 1975."

Clean water goals, said Fulcher, cannot be achieved until cities improve the quality of sewage discharges into rivers and streams. Financing has been a major drawback for municipalities.

Amendment provides for a state matching grants program to make available on loan basis 25 per cent of the eligible cost of sewage treatment plant construction.

With the state program, federal grants (now only 33 per cent) can increase to about 50 per cent. That leaves cities with only 25 per cent of a project cost to bear immediately.

Fulcher said he is hopeful that cities will move forward with the "greatest of haste" to take advantage of additional financial aid.

U. S. TO HELP MAKE RAIN — Federal aid through weather modification experiments aimed at bringing rain for bone dry areas of Texas has been promised, Governor Smith announced.

Operational details of a cloud-seeding project will be coordinated with the U. S. Department of Defense, the Bureau of Reclamation of the Interior Department and the National Oceanic and Atmospheric

were three other bids of \$30 million in bonds offered for sale. Buyers represented all areas of the country.

AIRPORT GRANT RECEIVED — Federal Aviation Administration approved a \$419,974 grant to Texas for a comprehensive study of future airport development needs.

Funds, together with \$200,987 in state money, will be used to develop an airport systems plan for Texas. Grant seeks development of a plan that can be used to forecast regional and statewide demands for air transportation.

COURTS SPEAK — State Supreme Court in a Potter County case held that signing by an injured person of a release settling a damage claim is valid only for that person and no other involved in the dispute.

High Court told four contractors for San Antonio's Hemisfair '68 that they couldn't collect on deferred payment certificates and unsold tickets which they received for partial payment of their services. Firms sued City of San Antonio, San Antonio Fair Inc. and San Antonio Urban Renewal Agency.

Austin District Judge Herman Jones enjoined the sale of historical (1755-1846) documents, "The Laredo Archives," to which the state lays claim. Value is estimated at from \$350,000 to \$1 million.

Held Sunday for  
Annie Nicholson**

Annie Myrtle Nicholson, 87, a resident of Hamlin for 52 years, died at the Hamlin Memorial Hospital at 5:45 p.m., Friday, May 21, 1971. Mrs. Nicholson had been ill for three months.

Mrs. Nicholson was born October 20, 1883, at Gordon, Texas. She was the daughter of the late Mr. and Mrs. Will Askew. She married the Rev. George A. Nicholson, Dec. 29, 1905, in Gordon. He preceded her in death.

Funeral services were held at 2:30 p.m. Sunday in the Church of the Nazarene. Rev. Marshall Stewart, pastor, officiated. She was a member of the Church of the Nazarene.

Survivors include five sons, P. R. (Pat) Nicholson of Stamford, F. R. Nicholson of Hamlin, M. A. and H. M., both of Odessa, J. A. of Wayne, Pa.; three daughters, Mrs. Faye Dean of Hamlin, Mrs. C. W. (Lucille) Owen of Roswell, N.M., Mrs. C. W. (Sara) Gold of Kermit; two sisters, Mrs. Alice Robinson and Mrs. Emma Segars both of Gordon; eight grandchildren and 11 great-grandchildren.

Grandsons and sons-in-law were pallbearers.

News deadline is noon Tuesday. Tuesday evening events by 10 p.m. Tuesday or 8:30 a.m. Wednesday.

## From Area Papers

Western Observer (Anson) — Commencement exercises for 55 graduating seniors will be held Friday evening at 8 in the high school auditorium.

Commencement speaker will be Dr. Thomas Kim, president of McMurry College.

Honor students for Anson High School are David Langford, valedictorian; Bill McCaleb, salutatorian; and Susan Barber, highest ranking girl.

The Aspermont Star — Stonewall County voters turned down a proposal that would have allowed the use of county funds for construction of a community center and livestock building in a special election Tuesday.

The vote was 206 against and 132 for.

Under the plan advanced to build the community center, it would not have been necessary to increase taxes. The project, which would have cost about \$50,000 would have been paid for by transferring surplus money from the Road and Bridge Fund.

The Stamford American — The Stamford School Board rejected all bids for a metal science building and voted to remodel the old gym on the ground floor of the high school building for the needed space.

The recommendation for remodeling came from Dr. William E. Barron, dean of the University of Texas extension division and director of public school surveys.

Dr. Barron said the remodeling would save the school a considerable amount and still provide the needed facilities.

Commencement exercises for Stamford High School will be

born Nov. 22, 1952, in Hamlin. He entered McCaulley School in the first grade. Duane has enlisted in the U. S. Army and will enter June 1. He will train in Air Traffic Control Personnel.

While in high school he participated in FFA and held the offices of president and treasurer. He played football, basketball, track and baseball. He received two letters, one for football and one for basketball.

Duane was voted most outstanding FFA member, an Outstanding West Texas Scholar, class president and most likely to succeed.

His hobbies are flying and renovating antique automobiles.

Friday, May 28, in the auditorium. There are 71 candidates for graduation this year, 41 boys and 30 girls.

## NEWS AND VIEWS . . .

### And What Have You

By BOB CRAIG

For some reason or other I had a few people give me a hard time last week just because in our story on the water and sewer rate increase we had that the price of water after 14,000 gallons would be 50 cents a gallon instead of 50 cents a thousand gallons.

The city needs the money all right but I guess 50 cents a gallon would be a little too much.

As with any increase in costs there are those who are upset about the city raising the water and sewer rates. If it is any consolation, the increase came only after a great deal of discussion and a lot of searching for some other means of raising enough revenue to meet the needs of the city for the coming year.

The councilmen seemed to think that this method would hurt the retired people and those living on meager incomes the least. A tax increase would hit everyone and while everyone's sewer bill will go up a \$1.00 a month, only those using a great deal of water will pay anymore for their water.

Facing the city fathers was the need to find some method of raising enough money to pay for a new fire truck expected to cost \$18 to \$22,000, which is a must purchase if the city is to maintain its fire rate. Also facing the councilmen this year is a new sewer system that is expected to cost the city some \$25,000 this year and another \$25,000, spread over several years. This too, is an expense that the city cannot avoid because of state and federal regulations.

Since a great deal of the money needed was for a new sewer system the councilmen seemed to feel that an increase in sewer rates would be fair and justified.

I was disappointed in the state-wide voting on the amendments last week. I can understand that people are tired of spending so much money on welfare, especially with all of the waste. But, at the same time, because of the defeat of the welfare amendment, I can foresee a great many problems facing the state during the next two years unless some arrangements can be made to take care of the needy.

The most disappointing thing about the election was the poor turnout of voters. I received the following letter from Representative Frank Calhoun that was written the day before the voting but expresses his concern about people not voting.

Dear Bob:

Just a note to thank you for your indepth editorial on the Constitutional Amendments in the Hamlin Herald of May 13, 1971. I certainly hope that all of your readers read in full your editorial and maybe it will encourage them and provoke them into voting on Tuesday. The vote will probably be very light and this is indeed unfortunate.

I wish that I know of some way to impress on the voting public the importance of amending our Constitution. Your editorial should certainly help.

Best personal regards.

Sincerely,

Frank W. Calhoun

If I wore a hat I certainly would take it off to the few men who have worked so hard over the past month or so in the clean-up campaign. This is especially true of the city employees who have done such a good job of cleaning off a number of lots in the downtown area.

While it will take a long time to get Hamlin as clean as we would like for it to be, if you will take the time to drive around you will see that a great deal has been done.

The big problem is getting more people to help. If you have some time that you could spare I would suggest that you either meet with those working each Tuesday and Thursday

## Sidewalk Sale, Flea Market Being Planned Here June 4

The Retail Trade Committee of the Hamlin Board of Community Development announced plans this week for a Sidewalk Sale and Flea Market to be held here Friday, June 4, according to Chairman Charles Reed.

In making the announcement, Reed said that the committee hopes all of the people in the area will take advantage of the Flea Market and make this a big downtown Garage Sale with tables and booths set up all over the downtown area.

The Sidewalk Sale has been an annual affair sponsored by the Retail Trade Committee for the past several years, but this is the first year that the idea of a Flea Market has been planned in conjunction with the sale.

Those interested in bringing unneeded merchandise to town to sell are urged to contact any merchant for help in finding a location to set up. Plans call for the public to set up their merchandise on sidewalks and between the downtown buildings.

Some merchandise has already been donated to offer at a drawing to be held at the end of the day and various merchants are expected to have special bargains for sale out on the sidewalk as well as prizes to be given at drawings.

Reed said that it is the hope of the committee that everyone will take advantage of this opportunity to make this an old fashion type Swap and Shop day and a day to have fun and visit with your friends.

## Bill Feagan to Serve As Rehab Center Director

Bill Feagan of Hamlin was one of the new members elected to the Board of Directors of the West Texas Rehabilitation Center in Abilene. According to Bobby Sayles, president of the Rehab Center, Feagan joins other West Texans on the new board of directors in an effort to make the center an even more of a regional rehabilitation center.

Sayles, Tuscola banker, stated as one of his goals when taking over the helm as president of the Board of Directors in January of 1970, his desire that the West Texas Rehabilitation Center would become regionally representative not only in the services the Center gives, but by electing

members to the Board of Directors of the Center.

The West Texas Rehabilitation Center, founded in August of 1953, has grown from a one room treatment facility to a physical plant valued at over one million dollars with a large staff of therapists and diagnosticians. No patient is ever denied treatment at the Rehabilitation Center because of financial circumstance or geographical restrictions.

The majority of the Center's budget of \$426,000 must be raised from donations. These range from memorial gifts to participation in the Cattleman's Round-Up for Crippled Children to specific or general gifts. Donations large and small from donors of all types have and will make the West Texas Rehabilitation Center belong to all West Texans.

### Date Change Made For City-Wide Rally to June 6

Date for the city-wide rally to be held as one of the first stages of the city-wide revival to be held here this summer has been re-set for June 6. It was originally planned for Sunday evening.

A speaker from the Clifford Mayo team will be here for the service at 7 p.m. June 6 in the First Baptist Church.

Dates for the city-wide revival will be July 18-25.

HAD A PARTY? That's news, call the HERALD.

**DEDICATED TO MR. CONCERNED** — The 1971 edition of the Piper, Hamlin High School yearbook, was dedicated to I. J. Starr, who was designated as "Mr. Concerned" by the staff. Here, Tara Colley, business manager, presents the first copy to Mr. Starr at a special assembly.

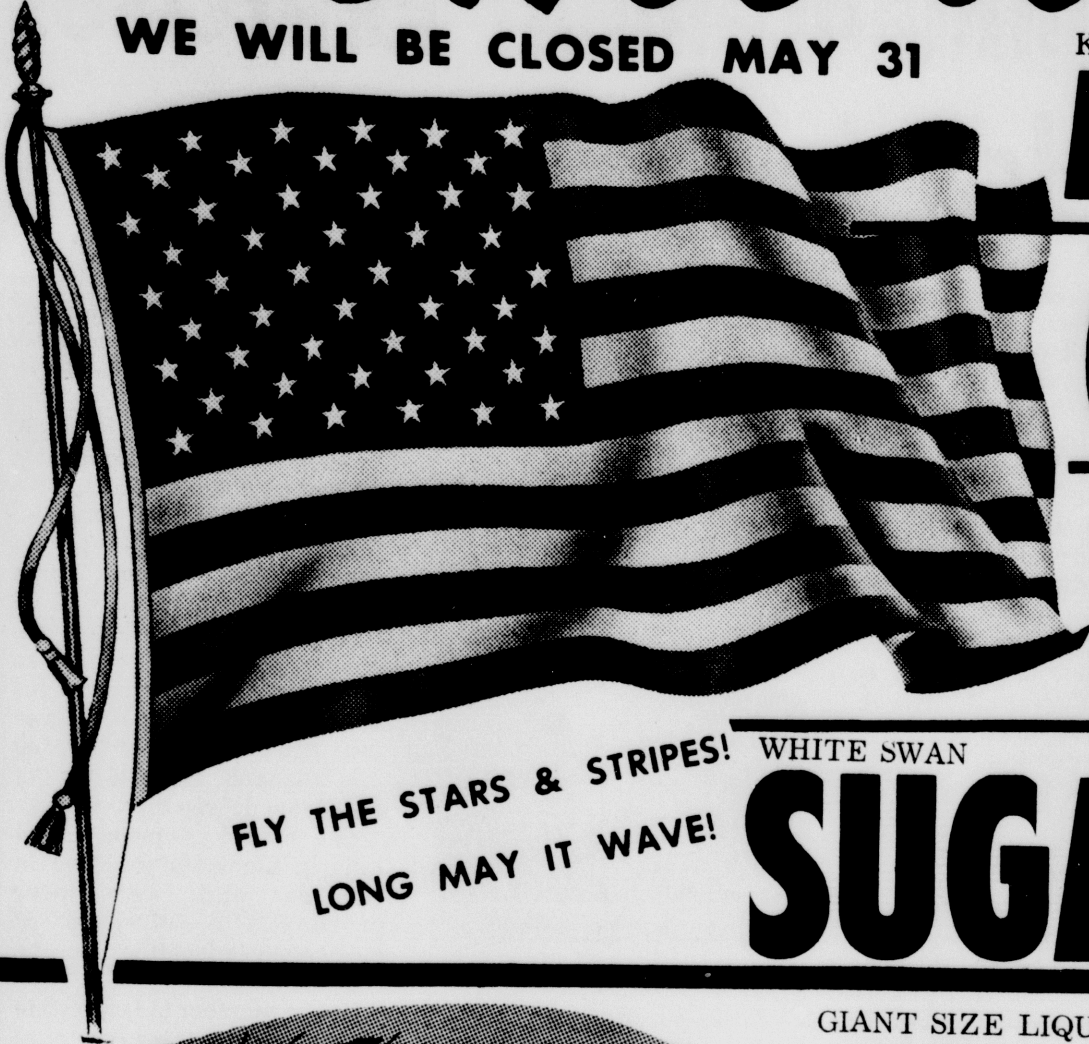

**RECEIVE ROTARY AWARDS** — Hamlin High School students receiving the Rotary Award at the luncheon meeting last Wednesday are from left, Toni Casey and Darrell Craig, seniors; Shelley Holtz and Barry McDonald, juniors; Terri Casey and Frank Willis, sophomores; and Diane Ford and Steve Mackey, freshmen.

Iron Starved Plants

Ever wonder why your azaleas, rhododendrons and other plants turn yellow, even after you have given them regular care? It's true that some insects and diseases produce yellowing or pale leaves, but there's another common cause — iron deficiency, referred to as iron chlorosis.

Home gardeners often neglect this important plant food, because it is one of the so-called minor elements. Fact is, iron is just as important to green, rich color and plant health as major elements such as nitrogen.

You'll recognize iron deficient plants by their pale green or yellow leaves, with green markings along ribs or veins. In advanced stages, plants stop growing and eventually die. It's a problem of professional and home gardeners alike. Roses, azaleas, rhododendrons, holly, pin oak and others are extremely susceptible.

You may think your plants are getting plenty of iron because your selection of fertilizer contained iron or because you had a test run on your soil and it showed sufficient iron. It is possible to have plenty of iron in the soil and plants still be unable to get it. Iron combines with other chemicals in the soil such as lime and becomes "tied up" or unavailable to plant growth.

To be on the safe side, treat your plants with an iron solution such as Sequestrene which contains ferrous (Fe) iron chelate. In this form, the iron is available to plant growth and can not be "locked up" with other chemicals.

For individual trees, plants, and small flower beds, sprinkle material directly from the package evenly over soil surface around plants. Then water the soil to a depth of six inches. On larger areas such as lawns, gardens or numbers of trees and shrubs, mix with water and use as a spray. Wet plants to the point of dripping but do not drench. Spray underside of leaves and centers of trees and shrubs that have dense foliage.

Iron restores vigor and color to yellowing, iron deficient grass and plants. If lack of iron is your problem, a treatment now will make a lot of difference in your plants in a couple of weeks.

HOMEMAKERS CLASS  
MEETS WITH MRS.  
SCOTT MONDAY

Homemakers Sunday School Class of First Baptist Church met Monday evening in the home of Mrs. Melvin Scott for a salad supper and a book review presented by the hostess.

Mrs. Scott reviewed "Crosses of Zarin" by Jean Bell Mosley. Co-hostesses were Mmes. Charles Pearce and C. E. Evans.

Others attending were Mmes. LaFoy Patterson, Leldon Clifton, James Rodgers, Marvin Carlton, Joe E. Ford, Rex Reynolds, Ed Lewis, Doyle Ponder and Bill Shira.

Local Women  
Attend District  
Church Assembly

Attending the West Texas District Assembly of the Church of the Nazarene May 18-20 in Lubbock were Mrs. C. E. LaBaume, president of the local Nazarene World Mission Society, Mrs. Ina Parker and Mrs. R. D. Higdon, delegates.

Also attending from the local church were the pastor, Rev. Marshall Stewart and Mrs. Stewart.

The Hamlin NWMS meets the first Wednesday of each month at 7:30 p.m. Mrs. Joe Norton is the teacher.

Personal Shower  
Wednesday Honors  
Lana Blanton

Lana Blanton was honored with a personal shower last Wednesday afternoon in the home of Mrs. Jerry Waggoner. Mrs. Ben Turner and Mrs. David Casey were co-hostesses. Decorations were green and white, the bride's chosen colors. The table was covered with a cutwork linen cloth and centered with an arrangement of spring flowers.

Guests included Toni Casey, JerryAnn Waggoner, Jimmie Lou Bishop, Susan Patterson, Judy Adair, Janice Crouch, Jan Young, Mrs. Spencer Ford, Mrs. Charlie Bishop, Suellen Waggoner, Tracey Blanton, Shelly Holtz, Mrs. Herman Daniels, Janies Holzman and Mrs. Sonny Holzman, both of Abilene.

Miss Blanton and Walter Creason will be married June 12.

News deadline is noon Tuesday. Tuesday evening events by 10 p.m. Tuesday or 8:30 a.m. Wednesday.

Wedding Hints ..

If a wedding is being planned, these pointers on deadlines will aid in getting complete coverage of the event in the Hamlin Herald.

Two pictures of the bride will be used, a one column with the engagement story (if announced six weeks or more prior to the wedding) and a two column with the wedding story.

A billfold size black and white picture is adequate for the picture published with the engagement announcement.

The wedding picture should be a 5 x 7 or 8 x 10 black and white print. This needs to be turned in with the wedding information to the Herald office on Tuesday preceding the date of the wedding or no later than Monday immediately following the wedding.

Information and picture received three weeks after the event will not be published.

If the bride chokes, she may have a picture taken at a tea or shower instead of the wedding picture. A sharp black and white print must be in the Herald office by Tuesday morning immediately following the event.

Information blanks for engagements, weddings and anniversaries are available at the Herald office.

Mr. and Mrs. Gary Don Seay of Stamford are parents of a girl, Melody Ann, 9 lbs. 10 1/2 oz., born May 23 at 6:30 a.m.

Cooper-Porter Vows Read  
Here Saturday Evening

Margaret Joan Cooper, daughter of Mr. and Mrs. Paul Cooper, and George Harold (Hal) Porter, son of Mr. and Mrs. G. H. Porter of Highland, Ind., were married here Saturday at 7 p.m. in the First Baptist Church.

The Rev. Jack Riley, pastor of St. Luke's Methodist Church in Haltom City, uncle of the bridegroom, officiated.

Sue Lewis of Rule was organist and Paula Terrell of Haskell was soloist.

Presented in marriage by her father, the bride wore a formal gown of organza and lace in an A-line silhouette with bishop sleeves, high neckline and detachable chapel train. Her pearl trimmed flower petal cap held the elbow length veil. She carried orchids and roses.

Marijane McAdoo of Haskell was maid of honor. Bridesmaids were Mrs. Jimmy Cooper of Burleson, sister-in-law of the bride, Janice Hardaway of Lubbock, and Debby Porter of Highland, Ind., sister of the bridegroom.

Attendant's gowns were hot pink tati crepe. They wore flowers in their hair and carried bouquets of mixed flowers.

Kay Lynn Berry, cousin of the bride, was flower girl. Ring bearer was Troy Cooper, nephew of the bride.

Candlelighters were Phillip Land of Burleson, cousin of the bride, and Kenny Payne.

Glen Nix of Colorado City was best man. Groomsmen were Larry Dwyck of Garland, Lanny Baker of Desdemona and Jerry Halpin of Garland.

Ushers were Chuck Anderson of Dallas, Jimmy Cooper of Burleson, brother of the bride; Bob Gardner and Mel Henkes, both of Hamilton and both cousins of the bridegroom.

The reception followed in Fellowship Hall.

The bride, a graduate of Hamlin High School, will graduate from McMurry with a bachelor of science degree in August. She is a member of Delta Beta Epsilon and Kappa Delta Phi.

Porter, a graduate of Highland High School, received a bachelor of science in social science from McMurry May 23.

He was a football letterman, and member of Alpha Sigma Chi and FCA. He will be employed by Coca Cola Company in Abilene and then plans to coach in the fall.

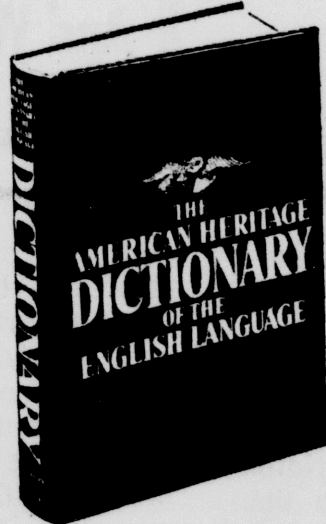

MRS. GEORGE HAROLD PORTER  
... formerly Margaret Cooper

The bridegroom's parents hosted the rehearsal dinner at Cliff House in Stamford.

The credit record of the electric cooperatives is perhaps without parallel in the history of the nation. In Texas alone some 79 separate, independent rural electric utilities have compiled a repayment record on their financial obligations which enviable by any standard. These member-owned electric systems have met these obligations on time while providing a dependable supply of low-cost power to people who had no electricity.

This record speaks proudly of the diligence and integrity of the member-owners of the Midwest Electric Cooperative who are building a brighter tomorrow and helping Texas Grow.

NEWS FROM ...

Sylvester

By MRS. R. M. BABB

A very cool Monday morning for the 24th of May and very, very dry!

Mrs. Neda Kiser spent several days last week in Callan Hospital in Rotan but is home at this time.

I don't think I have mentioned the Jim Beck's new grandson, Christopher Andrew Sims, son of Mr. and Mrs. Taylor Sims of South Carolina.

Our congratulations to Debbie and Ray Douglass, Sylvester graduates of Roby High School.

Mr. and Mrs. Cecil Sluder of Lubbock visited in the Mutt Early home this past Sunday, then on Sunday night the Earlys attended their granddaughter's Baccalaureate service in Snyder.

Mrs. Ruth Brown and Mrs. Carra Perkins spent one evening last week in the Prather home in Sweetwater.

Mrs. Lorene Mauldin and Mrs. J. E. Tindall shopped in Abilene on Monday.

Mrs. W. B. Brown and Mrs. May Hurst shopped in Abilene on Saturday.

Mrs. Chub Hardwick and Wenzel attended the first grade picnic with Naressa last Friday.

Visiting in the home of Mrs. Gladys Williams Saturday night were their granddaughters, Janie and Gladys.

Visiting for a short time Saturday with Mrs. J. P. Maberry was her sister-in-law and her nieces from Odessa.

I am very sorry the news is short again this week but I have been out of town most of the time so I know very little.

FROM THE FILES . . .

FORTY FIVE YEARS AGO  
(May 21, 1926)

Tuesday was a lovely spring day; only a bit too warm after the cool days, but a rather modest scattering cloud began to form in the north and then electrical display and thunder started. It began to look like a "bluff," like the kind we get when we really want a good rain, so for an hour it looked like it was uncertain what to do. But before sundown there was considerable hail in town and to the west, across Fisher County, hail fairly poured. It is said there was great damage to window glass at the Cement Mills and lots of young crops damaged.

Rain kept falling and by midnight the largest general rain of the year fell. This filled all lakes and flushed out all streams. This rain stopped the planting rush. Probably two thirds of the cotton crop was planted and lots of it up. In some cases the Tuesday night rain will be the cause of replanting. The seasons this spring are wonderful, all we need to get our farming interests on the way to growing is warm weather and not so much rain.

One of the most prominent events of everybody's community every year is the closing of school with its several programs and graduation exercises. These programs began last week and also Friday evening Mrs. Swanson, instructor in Expression and Mrs. L. B. Howard, Director of Music in the High School gave joint recitals to large and appreciative audiences. These Departments have made splendid progress in this term and the manner in which the students responded in their programs proved that their instructors have done their part as instructors.

of town 50 percent to 100 percent, the average is running about 17 to 18 bushels per acre.

Mr. Fowler feels that if the sun shines for the next several days it is possible the farmers can complete the harvest this next week.

The moisture received in the Hamlin area since the first of January is 5.94 inches, which is below the 7 inch average for this time of year, according to Bill Rountree at the City Pump Station.

Small amounts of rain has fallen on five separate occasions this month totalling 2.22 inches. Some hail was reported with most of the damage west of town.

Aspermont carried home both the men's singles and doubles in the open class of the second annual Hamlin Jaycees Tennis Tournament held here this weekend.

The Hamlin High School baseball team will play Crane in the regional playoffs to be held in Midland at 2 p.m., Saturday.

Hamlin won bi-district 3 and 4 by twice defeating the Cisco club. By defeating Spearman and Alpine, Crane won bi-district 1 and 2.

Open house will be held at the recently completed Baptist parsonage, 815 W. Lake Drive, from 3 to 5 p.m. Sunday.

In the meeting of the City Council, held May 16 in the City Hall, the engineering firm of Frees, Nichols and Andress from Fort Worth advised the council on the purchase of new water pumps needed at the Stamford plant to pump water to Hamlin.

Due to the increase of water consumption here the pumps now in operation are unable to furnish as much water as needed.

evening or contact Ellis West or Jerry Smith and volunteer your services. If you can work either Tuesday or Thursday, the workers are meeting at the City Barn at 6:30, but if you would prefer to work some other time then there are a number of jobs that can be done anytime.

There are a lot of lots that could be mowed, if the junk and rocks were removed. But this all takes manpower and up to now there seems to be a shortage of this.

There are a number of downtown buildings that need to be boarded up and painted so that those passing through town do not get the impression that this is a ghost town. Donations for materials are needed for this project as well as labor.

Another project that would go a long way toward improving the looks of downtown would be to cut the weeds and grass growing in the cracks in our sidewalks and curbs. These also need to be sprayed with a weed killer to keep them from growing back as fast as they are cut.

The list of jobs that need to be done are almost endless but they all require labor from people who care. Won't you be one who cares!

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

TWENTY YEARS AGO  
(May 25, 1951)

A majority of the 1951 Hamlin High School graduates plan to attend colleges, it was revealed last week in a survey made by the Hamlin Herald in questionnaires submitted to individual members of the Senior class to fill in.

Out of a total of 49 questionnaires returned to The Herald 23 said definitely that they will go to college. Eleven of the class have no definite plans and 15 are undecided in the proposition.

There were 26 boys in the class compared with 23 girls. A large percentage of the class members are either members of some local church or gave their church preferences.

TEN YEARS AGO  
(May 25, 1961)

Showers during the week and the high humidity has slowed work on the wheat harvest. Only about 40 percent of the wheat in this area has been harvested thus far according to Robert Fowler at the Moore Elevator.

The Hamlin elevator shipped the first carload of wheat in the nation into Fort Worth last week. Although the hail last week damaged wheat in the Celotex and Swedonia area west

Neinda Philosopher Comes Out Against  
A Law Stopping Annual Auto Changes

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One gets sort of twisted up this week on a discussion of an economic problem. He's sometimes hard to follow.

Dear editor:  
In an article I ran across in a newspaper last night, this fellow Ralph Nader was arguing that Congress ought to pass a law to stop the automobile industry from changing models every year and take the money saved and invent a car that's pollution free.

I'm in favor of pollution-less cars, but I'm not sure Mr. Nader understands the economy of this country. A fast turnover seems to be the key to a booming economy.

Take pianos. The piano industry has rocked along for generations without ever hitting on the idea of coming out with a new model every year and as a

result it considers itself lucky if it sells a family one piano in a lifetime, and how many people does it employ? Just a few thousand, compared with hundreds of thousands in the auto industry. Piano workers could strike tomorrow and the economy would never know it. Probably couldn't even make the TV evening news.

Or take the plumbing industry. Have you ever stopped to think how much bigger an industry it'd be, how many more people it'd employ, if it'd convince housewives they ought to change bathtubs every year? It never occurred to the industry all it had to do was change fender designs, add hide-away faucets and maybe add safety belts.

Also, blacksmiths haven't changed the style of horseshoes in a hundred years, and how many blacksmiths are still around?

Or take probably the worst

example, trains. You ever hear of the railroads changing models on engines and passenger cars every year? How many passenger trains are still left?

Probably the reason farmers are in such bad shape is they've been raising the same brand of meat and potatoes for the last 1,000 years. Can you tell a 1971 hen egg from a 1910 model?

Or take people. We haven't had a model change in people in thousands of years, and look what shape the world's in today. Model changes, that's what keeps the economy booming.

Yours faithfully,  
J. A.

## Denver City Rites Held Monday for Mrs. John Brown

Services were held in the First Baptist Church of Denver City Monday for Mrs. John Brown, the former Mary Jeanette Townsend, a former Hamlin resident. She died Saturday in Lubbock at the age of 24.

She was born Jan. 7, 1947, in Rotan and had lived in San Angelo four years, moving there from Levelland.

Survivors include her parents, Mr. and Mrs. James Townsend of Denver City, her husband, two sons, of the home; one brother, one sister and grandparents, W. R. Townsend of Hamlin and Mrs. R. J. Cox, formerly of Hamlin, now of Brownfield.

Weekend events should be reported to the Herald by noon Monday.

A GIFT FOR THE SPONSOR — Vellanne Rowland, left, copy editor for the 1971 Piper, presents Mrs. Frank Codington, annual advisor, with a gift of appreciation for her guidance in producing the yearbook.

## Fort Griffin Fandangle Sets Six Performances In June

The 1971 Fort Griffin Fandangle will be staged at the Prairie Theatre in Albany on June 17, 18, 19, 24, 25, 26. The Fandangle Parade, scheduled for one day only, will be staged Thursday, June 24, at 6:00 p.m. Barbecue will be served on the Courthouse square each night of the performance, beginning at 5:00 p.m. Price of the barbecue will be \$2.00 per plate.

The Fandangle is presented in its own especially designed outdoor theatre. Carved from one of the hills which surround Albany, the theatre is a natural setting for the telling of ranch country heritage.

Ticket prices, all seats

RECEIVES AWARD — Tony Lewis, Hamlin High School senior, was presented the John Philip Sousa Award as an outstanding band student at the twelfth annual Parade of Music concert May 14. He plans to attend Baylor University as a music major.

reserved, are: \$5.00 for Box Seats; \$3.50 for chair seats, center section and first rows of side sections; \$2.00 for chair seats, side sections; and \$1.50 for bleacher seats.

Fandangle opening night, June 17, has been designated "Kissin' Kin" night. For this one night only a reduced scale of ticket prices is available. Mail orders for tickets to the Fandangle are being accepted now. Box office will open Tuesday, June 1, at the Fandangle Office in Albany.

Each year the Fandangle is different, presenting new songs, new action and new dramatic surprises. This year Director James Ball has written "The Rainmaker," and very timely, indeed, about an Old West rainmaker.

Since 1938 the Fort Griffin Fandangle has been recreating Prairie History through pageantry and comedy and showing-off Western style.

During its six night summer fun the Fandangle Prairie Theatre's 1600 seats are filled with people from all over the United States — people who find the show enchanting and return again to bring others with them.

For brochures and information about the Fandangle, write the Fandangle Office, Box 185, Albany, Texas 76430.

Austin — Voters were in an antagonistic mood toward three proposed changes in the Texas constitution last week, but they approved one amendment termed "a great step forward for Texas cities and towns."

Down the drain went proposals to set up a state commission on officials' ethics and legislative pay, to increase the welfare ceiling and to permit constitutional amendments to be submitted in special sessions.

Whether welfare defeat will mean early cuts in assistance to the needy is the subject of sharp disagreement. It's a cinch legislators will get no early pay raise, although they can adopt their own code of ethics by statute.

Amendment adopted creates a \$100 million bond fund for construction of city or regional sewage treatment facilities.

Texas Water Quality Board Chairman Gordon Fulcher, Atlanta newspaper publisher, said adoption of the bond amendment is a "stride we very much hoped to make in order to reach our goal of meeting statewide water quality standards by 1975."

Clean water goals, said Fulcher, cannot be achieved until cities improve the quality of sewage discharges into rivers and streams. Financing has been a major drawback for municipalities.

Amendment provides for a state matching grants program to make available on loan basis 25 per cent of the eligible cost of sewage treatment plant construction.

With the state program, federal grants (now only 33 per cent) can increase to about 50 per cent. That leaves cities with only 25 per cent of a project cost to bear immediately.

Fulcher said he is hopeful that cities will move forward with the "greatest of haste" to take advantage of additional financial aid.

U. S. TO HELP MAKE RAIN — Federal aid through weather modification experiments aimed at bringing rain for bone dry areas of Texas has been promised, Governor Smith announced.

Operational details of a cloud-seeding project will be coordinated with the U. S. Department of Defense, the Bureau of Reclamation of the Interior Department and the National Oceanic and Atmospheric

were three other bids of \$30 million in bonds offered for sale. Buyers represented all areas of the country.

AIRPORT GRANT RECEIVED — Federal Aviation Administration approved a \$419,974 grant to Texas for a comprehensive study of future airport development needs.

Funds, together with \$209,987 in state money, will be used to develop an airport systems plan for Texas. Grant seeks development of a plan that can be used to forecast regional and statewide demands for air transportation.

COURTS SPEAK — State Supreme Court in a Potter County case held that signing by an injured person of a release settling a damage claim is valid only for that person and no other involved in the dispute.

High Court told four contractors for San Antonio's Hemisfair '68 that they couldn't collect on deferred payment certificates and unsold tickets which they received for partial payment of their services.

Firms sued City of San Antonio, San Antonio Fair Inc. and San Antonio Urban Renewal Agency.

Austin District Judge Herman Jones enjoined the sale of historical (1755-1846) documents, "The Laredo Archives," to which the state lays claim. Value is estimated at from \$350,000 to \$1 million.

The following letter was received by Principal B. V. Newberry after the seniors of the Class of 1971 were guests in the Palmer House Motel in Colorado Springs, Colo.

Dear Mr. Newberry,

What a pleasure it was to have you, your staff, and your students stay with us at the Palmer House.

You have a fine group of young people, that conduct themselves in a most proper manner. They are certainly a credit to you and the High School that they represent.

We send our best wishes to you and want you to know we will always welcome your return to the Palmer House.

# 55 HAMLIN SENIORS TELL PLANS FOLLOWING GRADUATION

Fifty-five graduates will be presented diplomas Friday evening in the Hamlin High School Cafetorium. Of this number 41 started to school in the first grade and have received all of their education in the Hamlin Public School system.

Forty-two students have indicated that they plan to continue their studies in college or special schools.

Judy Bob Adair, daughter of Mr. and Mrs. G. L. Adair, was born Apr. 25, 1952, in San Angelo. She moved to Hamlin in 1966 and entered Hamlin schools in the eighth grade. She plans to enter Hendricks School of Nursing in the fall to prepare for a licensed vocational nursing career.

She was a member of FHA four years, the band three years and the pep squad one year and played basketball one year. She was a finalist in the wool contest held in Lubbock.

Judy's hobbies are reading, outdoor sports, and horseback riding.

Marsha Hester Bishop, daughter of Mr. and Mrs. J. B. Hester, was born May 16, 1953, in Hamlin and entered public schools here in the first grade.

She was a member of FHA I-IV, sergeant-at-arms III, president IV; cheerleader IV; paper staff typist IV; and played basketball as a freshman. She was chosen Miss FHA IV, football sweetheart nominee IV, and Homecoming Queen nominee IV.

Mrs. Bishop's hobbies are water skiing and swimming.

Lana Blanton, daughter of Mrs. Mack Sellers and the late Mr. J. L. Blanton Jr., was born Nov. 4, 1952, in Hamlin. She plans to get married following graduation.

She was a member of FHA and band IV. Her hobbies are reading, cooking and outdoor sports.

Pamela Ann Booth, daughter of Mrs. Bill Foster and the late Mr. Troy W. Booth, was born Jan. 24, 1953, in Plainview. She moved to Hamlin from Abilene in 1970 and entered Hamlin High School as a senior. She plans to attend dental school to train to be a dental assistant.

A transfer student from Abilene High School, she attended Cooper High School as a sophomore. Her activities in Abilene schools included Latin Club I, II; FTA; FHA; Historical Club; Data Processing Club and treasurer of her freshman class. Sports

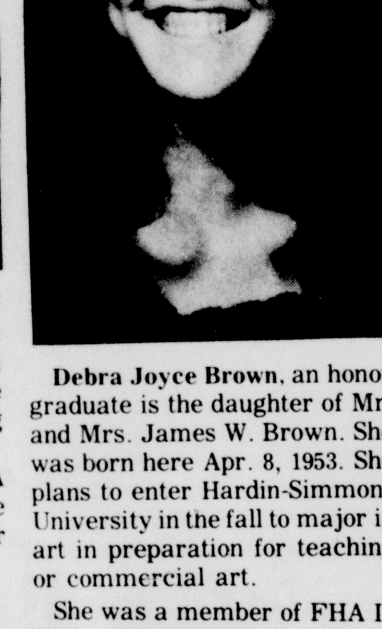

Debra Joyce Brown, an honor graduate is the daughter of Mr. and Mrs. James W. Brown. She was born here Apr. 8, 1953. She plans to enter Hardin-Simmons University in the fall to major in art in preparation for teaching or commercial art.

She was a member of FHA I; Junior Play, Senior Play, band I-IV, and basketball I-IV. She lettered in basketball as a senior.

She was a member of Student Council I-II and National Honor Society IV.

Debra's hobbies are water skiing, drawing and sewing.

Toni Kay Casey, highest ranking girl, is the daughter of Mr. and Mrs. David Casey. She was born Dec. 3, 1952, in Denton. She moved to Hamlin in 1962 and entered school here in the third grade. She is undecided about plans following graduation.

She was a member of National Honor Society III, IV, historian IV; band I-IV, stage band II-IV, vice president and majorette IV; Spanish club II, III; secretary III; Student Council III, school paper III, IV and Piper Patter III, IV.

She received letters in band II, IV.

She was Homecoming Queen, band sweetheart nominee, received the Rotary Award I, III, IV, and Outstanding West Texas Scholar award IV.

Toni's hobbies are water skiing and sewing.

Darrell Wayne Craig, valedictorian, is the son of Mr. and Mrs. Bob Craig. He was born Aug. 19, 1953, in Stamford. He moved to Hamlin in 1960 and entered school here in the second grade. He plans to attend the University of Texas at Austin in July.

High school activities include Library Club I; Spanish Club II,

clade Library club I, FHA I-IV, and pep squad.

Betty's hobbies are sewing, reading, tennis and volleyball.

## From Area Papers

**Western Observer (Anson)** — Commencement exercises for 55 graduating seniors will be held Friday evening at 8 in the high school auditorium.

Commencement speaker will be Dr. Thomas Kim, president of McMurry College.

Honor students for Anson High School are David Langford, valedictorian; Bill McCaleb, salutatorian; and Susan Barber, highest ranking girl.

**The Aspermont Star** — Stonewall County voters turned down a proposal that would have allowed the use of county funds for construction of a community center and livestock building in a special election Tuesday.

The vote was 206 against and 132 for.

Under the plan advanced to build the community center, it would not have been necessary to increase taxes. The project, which would have cost about \$50,000 would have been paid for by transferring surplus money from the Road and Bridge Fund.

**The Stamford American** — The Stamford School Board rejected all bids for a metal science building and voted to remodel the old gym on the ground floor of the high school building for the needed space.

The recommendation for remodeling came from Dr. William E. Barron, dean of the University of Texas extension division and director of public school surveys.

Dr. Barron said the remodeling would save the school a considerable amount and still provide the needed facilities.

Commencement exercises for Stamford High School will be

born Nov. 22, 1952, in Hamlin. He entered McCaulley School in the first grade. Duane has enlisted in the U. S. Army and will enter June 1. He will train in Air Traffic Control Personnel.

While in high school he participated in FFA and held the offices of president and treasurer. He played football, basketball, track and baseball. He received two letters, one for football and one for basketball.

Duane was voted most outstanding FFA member, an Outstanding West Texas Scholar, class president and most likely to succeed.

His hobbies are flying and renovating antique automobiles.

Friday, May 28, in the auditorium. There are 71 candidates for graduation this year, 41 boys and 30 girls.
